EDUCATION

Canara Engineering College, Mangalore *2023 – Present*
B.E. in Computer Science and Engineering *CGPA: 9.0*

Government PU College, Karwar *2020 – 2022*
Pre-University – PCMB *88%*

TECHNICAL SKILLS

- **Languages:** Python, Java, C, JavaScript
- **Web Development:** React.js, React Native, Node.js, Express.js, HTML5, CSS3, Typescript
- **Databases:** MySQL, MongoDB
- **Cloud & DevOps:** AWS, Docker, Jenkins, Ansible, GitHub Actions, CI/CD
- **Tools & OS:** Linux, Shell Scripting, Git, GitHub, VS Code

PROJECTS

Waste Collection Management System for Hasiru Dala NGO *2025*
React Native, Node.js, Express.js, MongoDB | Mini Project

- Developed a mobile-based waste collection management application to streamline door-to-door collection operations.
- Enabled waste collectors to manage household collections and monitor daily collection status through a centralized platform.
- Integrated digital payment functionality for waste collection fees and reduced manual record-keeping.

Blockchain-Based Digital Locker System *2025*
React.js, Node.js, Ethereum, IPFS | Hackathon Project – 1st Place

- Developed a decentralized document storage and verification system using Ethereum blockchain and IPFS.
- Implemented smart contracts for tamper-resistant document validation and secure document sharing.
- Designed a transparent verification architecture to improve trust and integrity of digital documents.

Cross-District Knowledge Transfer for Landslide Risk Prediction *2026 – Present*
GIS, Python, Machine Learning | Major Project

- Building a cross-district knowledge transfer framework to predict landslide susceptibility for Hassan district using data from neighboring districts.
- Prepared 16 Landslide Conditioning Factor maps including DEM, slope, aspect, curvature, TWI, rainfall, lithology, NDVI, and other geospatial factors using GIS.
- Created an integrated machine learning dataset by extracting and combining geospatial features from multiple raster layers.

EXPERIENCE

Web Development Intern – InLighnX Global Pvt. Ltd. *Sep 2025 – Oct 2025*
Web Development Internship

- Completed a one-month internship focused on frontend and backend web development.
- Developed responsive web applications using modern JavaScript-based technologies.
- Worked with Git and collaborative software development practices while implementing application features.

ACHIEVEMENTS

- **1st Place – Nexathon 2025**, Sri Devi Institute of Technology.
- Participated in an ideathon organized by the AI/ML Department, Canara Engineering College (2025).
- Volunteered at **ICWIE 2025**, the 3rd IEEE conference organized by IEEE Women in Engineering Affinity Group, Bangalore Section.
- Volunteered for Action Replay and Circuitrix at Aakriti 2025, and Coastal Startup Fest 2026.

CERTIFICATIONS

- C Programming – Spoken Tutorial Project, IIT Bombay.
- Python 3.4.3 – Spoken Tutorial Project, IIT Bombay.
